Experience the mystery and romance of Peru through your taste buds. Tejas, Peruvian chocolate, brings a new taste in chocolate with its unusual, unexpected and delicate flavours.

Tejas del Solar chocolates fuse old recipes from Peru with quality ingredients from Australia and Belgium. The heart of these Peruvian sweet treats is the traditional manjarblanco, a sweet mix of milk, vanilla beans and sugar, simmered for a few hours until it reaches its signature rich texture. This is then combined with delicious Australian fruits and nuts and coated in Belgian chocolate.

Join Carmen Almenara from Tejas del Solar as she guides us through the exquisite sweet flavours of this very special Peruvian treat.
